

ROTATHOR

Kontaktfrei

Utilizing magnetic fields to transfer torque from one shaft to another without physical contact, **ROTATHOR™ Kontaktfrei Magnetic Coupling** ensures smooth, efficient and reliable performance in a wide range of industrial applications.

Say goodbye to mechanical wear, overheating and maintenance issues, and welcome (up to 50%) energy conservation, 97% transmission efficiency and a long, cost-efficient lifespan.

Product Specifications

SPECS

- Obviates the need for any lubricants
- No overheating problem
- Extended periods between maintenance times
- Fast and straightforward repair process
- Long, cost-efficient total lifespan
- Custom made per preferred size
- Up to 50% in energy preservation
- %97 efficiency in power transmission
